## 1 Introduction

The March 2025 Software Release Project aims to implement 11 Approved Changes, to include:

- 5 changes to the CMA Central Systems:
  - Future-dated transactions for Live RV
  - Allowing Customer Name updates during Temporary Disconnection
  - Removal of redundant error codes
  - Implementing the outcome of the Performance Charges review
  - Display of additional information in the LVI
- A further phase of presenting additional information about the Market and CMA Performance
- Enhancements to the Audit Report Module (ARM)
- Commissioning of a new test server for the CMA Reporting server
- 1 documentation change:
  - Consolidation of legal drafting for the Release.

These Approved Changes will be delivered in accordance with LWI 205 and will result in a new:

- Version 7.6 of the CMA CS
- Version 2.5 of the ARM
- Version of the CMA website

These will be released to the Production environment with no regression of current functionality and system performance occurring.
